## To Our Customers Old and New:

The word for 2016 is “change” and we welcome that!! We have put some industry hard times behind us as we enter this new year full of optimism and excitement. There’s been a uptick in the size and quality of jobs and it appears that there should be plenty of opportunity for this Spring. It is a good feeling to know that there is great potential for a strong year. The biggest challenge we see for early Spring will be very tight inventory on many common items. As you begin the season, keep in mind that good substitutions should be an option to complete the job. We hope that the “fun” comes back into doing what we all love to do - PLANTS !

Our pricing has stayed pretty much in line with last year’s prices, and hopefully fuel and freight charges will not increase this Spring. We will continue to provide the highest quality plants at a reasonable cost, and we are always happy and able to quote on projects of any size and arrange direct shipping when possible. We have continued our volume discount based on last years sales and the breakdown is as follows:

\$20,000 + -- 5% Discount  
\$30,000 + -- 8% Discount  
\$40,000 + -- 10% Discount  
\$50,000 + -- 15% Discount  
\$100,000 +--20% Discount

We extend our sincerest gratitude to you, our customer, for choosing Sam Browns Wholesale Nursery. We look forward to serving and providing you with some of the finest plants in the country. Here’s to a busy and profitable 2016 !

All our best,

The Staff @ Sam Browns Wholesale Nursery

## Hot New Items In Limited Supply

Buxus x 'Cranberry Creek'- a tough, pyramidal growing Boxwood similar to Green Mountain but smaller in stature

Buxus s 'Green Tower'- a narrow upright Boxwood reaching 8' but only being 18-24" wide

Cephalotaxus h 'Hedgehog'- A great low spreading form of Plum Yew, taller than 'Prostrata' but shorter than 'Duke Garden'

Cercis c 'Carolina Sweetheart' - we know ... another Redbud!! Rich maroon leaves unfurl in early spring, eventually becoming green with a white margin. A true beauty !

Diospyros v Magic Fountain - A distinct selection of native Persimmon noted for its rapid, upright growth and weeping branches.

Will reach 10 to 15 feet tall and 5 to 7 feet wide.

Hamamelis vernalis 'Quasimodo' - a Natural dwarf selection with compact twiggy growth to only about three feet tall and wide. Fragrant amber orange flowers in mid-winter.

Magnolia acuminata 'Koban Dori' - A compact selection of our native tree with soft yellow flowers and upright habit

Metasequoia g North Light - a super cool dwarf Dawn Redwood that forms a compact globe with creamy white needles

Quercus michauxii - the seldom offered Swamp Chestnut Oak, great foliage and resistance to bacterial leaf scorch

Hydrangea a 'Haas Halo'- this is a new selection of our native Hydrangea found by our friend Rick Ray. Huge lace cap white flowers that do not flop
